Principles & Practices of Wastewater Treatment (With Grade 1 Exam)

Mondays & Thursdays, February 24-April 6, 2020
Quonset Development Corp., North Kingstown, RI
5:00 p.m. - 8:00 p.m. Sign-in begins at 4:30 p.m.

Anyone preparing for a state WWTP operator certification exam will benefit from this structured overview of the wastewater field. The 40 hour course is based on the well-known CSU Sacramento home-study course manuals for WWTP operations. While this course is intended for those seeking Grade 1 licensure, it is also open to those looking to take the Grade 2 exam. The instructor will cover a wide range of topics including wastewater laws and regulations, preliminary treatment, sedimentation and flotation, secondary treatment processes, activated sludge, trickling filters, rotating biological contactors, waste treatment ponds, and disinfection.

Note:

Passing this course can be equivalent to passing the Grade 1 exam given by the Rhode Island Board of Certification of Operators of Wastewater Treatment Facilities. While this course can also assist in the preparation of other exams offered by the Board, a passing grade in this course can only be applied toward a Grade 1 application. Because the Board only offers licensure to approved applicants, passing this course is not necessarily a guarantee of securing the Rhode Island Grade 1 license.
